## WHOLESALE LIST - CACTI AND SUCCULENTS

Present economic conditions make it difficult to plan ahead these days, but we are still in a position to supply our customers with fancy stock in our specialized line, propagation of which in the case of seedlings was started  $l_{\Xi}^{1}$  to 2 years ago. You can still depend upon us for clean plants grown in steam sterilized soil and kept clean under the rigid California State Certificate Nursery inspection.

We wish to thank our old customers for their continued orders and invite others to send us a trial order for our high quality cactus and succulents.

THIS LIST CANCELS ALL PREVIOUS LISTS and contains all the items which we can supply at this time in wholesale quantities. You will do us a favor if you do NOT order obsolete items from older lists which can no longer be supplied.
